SUBJECT INDEX TO VOLUME 129

Alan Bernstein memorial laboratories
  The division of clinical pharmacology at Johns Hopkins (Tilghman, R. C.), 339
Alan Bernstein the man. Remarks delivered at the dedication of the Alan Bernstein memorial laboratories (Genecin, A.), 341
Alcohol
  consumption and effect on myocardium of mouse (Burch et al), 130
  toxicity and effect of prolonged consumption on mouse myocardium (Burch et al), 130
American Osler Society (Henderson, A. R.), 343
  (Bean, W. B.), 346
Aortic rupture
  prevention in Marfan syndrome with data on survivorship without treatment, (Halpern et al), 123

Bender Gestalt test
  in brain dysfunction (Wetzel et al), 6
Blalock-Taussig operation
  I. Results of first operation (Taussig et al), 243
  II. Second operations, frequency and results (Taussig et al), 274
  III. Common complications (Taussig et al), 274

Carcinoma
  esophagus, palliative radiation treatment in advanced (El-Mahdi et al), 156
  the place of the Halsted radical mastectomy (Ravitch, M. M.), 202
Cardiomyopathy
  associated with prolonged consumption of beer, wine and ethanol on myocardium of the mouse (Burch et al), 130
Cauda equina tumor
  infiltration in lymphosarcoma (Mullins et al), 170
Central nervous system dysfunction
  seizure disorders in children (Whitehouse, D.), 36
Child psychology
  performance (Welcher et al), 19
  the sex of human figures drawn by seven-year-olds (Levi & Welcher), 10
Cholera
  exotoxin, comparison of jejunal response (Halstead et al), 179
  toxin, stimulation of glycogenolysis (Zieve et al), 299
Copper
  the effect on iron metabolism (Josephs, H. W.), 212
Corticosterone
  adreno-ovarian physiology in rat treated with (Salimi & Seegar Jones), 332
Criminal confinement
  and psychiatric impairment (Nussbaum et al), 149
Crystals
  glomerular, in systinosis (Spear et al), 83
Cyclic AMP
  in stimulation of glycogenolysis (Zieve et al), 299
Cystinosis
  polykaryocytosis in visceral glomerular epithelium (Spear et al), 83
  late onset (Spear et al), 83
  juvenile (Spear et al), 83
Developmental psychology
  maturation rate determination by the Bender Gestalt test (Wetzel et al), 6
  performance (Welcher et al), 19
    the sex of human figures drawn by seven-year-olds (Levi & Welcher), 10
Division of clinical pharmacology at Johns Hopkins and the Alan Bernstein memorial laboratories (Tilghman, R. C.), 339
Drugs
  drug abuse program, relative value of medical staff versus addicts in rehabilitation of drug users (Borenstein, D.), 290
  reactions and studies on epidemiology of (Stewart & Cluff), 319
  rehabilitation of drug users in a drug abuse program (Borenstein, D.), 290
  utilization and interactions of prescription and nonprescription drugs in outpatients (Stewart & Cluff), 319

Esophagus
  advanced carcinoma of and palliative radiation treatment of (El-Mahdi et al), 156

Forthcoming special events, 60, 121, 177, 240, 298, 351

Giant cells
  in visceral glomerular epithelium in cystinosis (Spear et al), 83
Glomerulus, visceral epithelium
  polykaryocytosis of (Spear et al), 83
Glycogenolysis
  stimulation of by purified cholera exotoxin in disrupted cells (Zieve et al), 299
Goodenough-Harris draw-a-person test social class and race as determinants of sex of human figures (Levi & Welcher), 10

Halsted radical mastectomy
place of carcinoma of the breast (Ravitch, M. M.), 202
Heart
Blalock-Taussig operation
long-time observations on (Taussig et al) 243, 258, 274
effect of prolonged consumption of alcohol on the myocardium of the mouse (Burch et al), 130

Influenza virus
effect of acute vitamin A deficiency on susceptibility of chicks (Bang & Foard), 100
Iron metabolism
the effect of copper (Josephs, H. W.), 212

Kidney
polykaryocystosis of visceral glomerular epithellium in cystinosis (Spear et al), 83

Lactose
intolerance in negro children (Paige et al), 163
malabsorption of and milk rejection in negro children (Paige et al), 163
Liver
stimulation of glycogenolysis by purified cholera exotoxin in disrupted cells (Zieve et al), 299
Lymphoma
of cauda equina (Mullins et al), 170
Lymphosarcoma
infiltration of cauda equina in (Mullins et al), 170

Mannitol, hypertonic
a comparison of jejunal response (Halsted et al), 179
Marfan syndrome
prevention of aortic rupture (Halpern et al), 123
Metopirone
— See Metyrapone
Metyrapone
adreno-ovarian physiology in rat treated with (Salimi & Seegar Jones), 332
Milk rejection
and lactose malabsorption in negro children (Paige et al), 163
Myocardium of the mouse
effect of prolonged consumption of beer, wine and ethanol (Burch et al), 130

Nervous tension as potential predictor in suicide (Thomas, C. B.), 190
Newborn infant
congenital syphilis (Oppenheimer & Hardy), 63
Newcastle disease virus
susceptibility of chicks (Bang & Foard), 100

Obituary and Memorial service
W. Barry Wood, Jr. (1910-1971), 110
Osler, The American Society
Comments (Henderson, A. R.), 343
A note of the association of Walter Reed and William Osler (Bean, W. B.), 346

Pentazocine
parenteral and oral abuse (Alarcon et al), 311
Phosphorylase
stimulation of glycogenolysis by purified cholera exotoxin in disrupted cells (Zieve et al), 299
Platelets
stimulation of glycogenolysis by purified cholera exotoxin in disrupted cells (Zieve et al), 299
Polykaryocystosis
in visceral glomerular epithelium in cystinotis (Spear et al), 83
Presentation of portrait
Philip Bard, 236
Vivien Thomas, 54
Psychiatry
emergency room, psychiatric, of The Johns Hopkins Hospital, is it meeting the needs? (Daggett & O'Connor), 304
impairment, psychiatric, and criminal confinement (Nussbaum et al), 149

Reading disorders
reading: a function of language usage (Hardy et al), 43
Respiratory tract infection
effect of acute vitamin A deficiency on susceptibility of chicks (Bang & Foard), 100

Seizure disorders
psychological and neurological correlates (Whitehouse, D.), 36
Suicide
potential predictors (Thomas, C. B.), 190
Syphilis
congenital, in the newborn infant (Oppenheimer & Hardy), 63

Treatment
palliative radiation treatment in advanced carcinoma of esophagus (El-Mahdi et al), 156
Twins
behavior of (Kranitz & Welcher), 1

Virus
influenza, effect of acute vitamin A deficiency on susceptibility of chicks (Bang & Foard), 100
Vitamin A
effect on susceptibility of chicks to Newcastle disease and influenza viruses (Bang & Foard), 100
